Dispatch In Vienna Announces The Sultan Has Given  
Up His Contest Against The Allied  
Forces Of Europe.

Athens, Nov. 28.—The British scout boat Sentinel, which accompanied the international fleet to Mytiline, returned to Piraeus, and reports that 200 Austrians, 100 French, 100 British, 100 Italian sailors have landed there, and occupied the custom house, the telegraph office, and other public buildings. Admiral Ritter von Jedina of the Austrian navy, acting commander of the fleet, accompanied by the Austrian vice consul, previously visited the governor of the island, who accepted the inevitable, and ordered the Turkish garrison confined to their barracks. Order has not been disturbed.

Says Sultan Has Yielded.

Vienna, Nov. 28.—The Neue Presse published a dispatch from Constantinople saying that the sultan through Tewfik Pasha, the foreign minister, has announced to Baron von Calice, the ambassador of Austria-Hungary, that Turkey accedes to the demands of the powers regarding the financial control of Macedonia.

Situation Is Serious.

Washington, Nov. 28.—The situation between Turkey and the European powers having become so serious during the last few days, great interest is felt in military and naval circles in the question of the Turkish defenses of the Dardanelles. It is well remembered that the English expedition in 1807 under Sir John Duckworth to the Dardanelles ended almost in a disaster for the attacking fleet. Turkey has spent a good deal of money on the defenses of this narrow strait, and it is expected that she can put up a successful fight against a modern fleet.

The principal fortifications of the

Dardanelles, which is a narrow strait of about three miles in length, are found on the end nearest to the sea of Marmora. At the entrance in the Aegean sea there are fortifications armed with Krupp guns of 15, 24 and 28 centimeters. The straits at that point are about three miles broad, then growing larger, and afterward grow again much smaller, and at that point the chief fortifications are built.

The Dardanelles at that point is divided into two straits by a small island. On the European side there are nine fortifications. The first one of these has twenty-six Krupp guns of 21 to 23 centimeters. On the Asiatic side there are three well armed fortifications. One of these has twelve Krupp guns of 35 centimeters each.

Could Stand Off Fleet.  
These fortifications are manned by two regiments. Their position is strong and as they are situated on the high banks of the straits they are able to hold up a much larger naval force without great danger to themselves. The only way to make them harmless would be by attacking them from the high hills on the land side. To prevent this a continual line of fortifications has been built closing the peninsula off from the European side.

These fortifications have all been built under the supervision of European military authorities and are well armed with the newest guns. An attacking fleet will have the disadvantage of having to proceed one by one, and although it is likely that the combined nations could take some of the Turkish islands, the opinion of many naval officers here is that they will not be likely to try to sail up to Constantinople.

## HINT AS TO THE POSSIBLE PLANS OF THE GOVERNOR

Madison And The Entire State Waits With  
Much Interest The Outcome Of  
The Session.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Nov. 28.—Governor La Follette is deep in the writing of his special message to be delivered before the legislature next Monday afternoon. He is absenting himself from the executive office and only such persons, mostly members of the senate and assembly, with whom he has appointments are able to see him. There is no hint given out at the capitol as to the character of the message, but it is known that it will deal with more than the mere correction of errors and unintentional omissions in the laws enacted in the six months

regular session that ended last June. The governor will demand advanced legislation on the subjects of railroad rate regulation and life insurance, and it is said that sensationally new will be his recommendations with respect to the changes of the form of ballot for general elections. While nothing reliable can be learned of the exact nature of the changes he proposes, past utterances by the governor suggest that he will strive to eliminate in large measure the power of the "party emblem," the "straight ticket," and other election and ballot elements that make party regularly powerful in the selection of public officers.

## CONSIDER CHANGING INAUGURATION DAY

April Thirtieth May Be Recommended  
—Committee to Present Subject to Congress.

[SPECIAL TO THE GAZETTE.]

Washington, Nov. 28.—The national committee on the proposed change of inauguration day met here today to consider the manner of presenting the subject to congress during the coming session. The committee is composed of Governors of various states and territories and fifteen residents of the District of Columbia. The proposed change of inauguration day has solved itself into two questions which are, whether the committee should advocate the selection of any particular day, as example, April 30, George Washington's inauguration day, or the last Thursday in April, the day named in Senator Hoar's resolution which passed the senate unanimously two years ago and was supported by this committee as the day to which the inauguration should be changed. The second question is whether the committee should make any recommendation to congress as to any change in the time of the meeting of congress. District Commissioner H. B. F. McFarland, is chairman of the committee.

George W. Perkins Explains How He Did Business For  
Organization Without Keeping Accounts  
In Regular Books.

[SPECIAL BY SCRIPTS-M'RAE.]

New York, Nov. 28.—The New York Life Insurance company was again on the rack before the Armstrong investigating committee Monday. John A. McCall, its president; George W. Perkins, its vice president, and Theodore M. Banta, its cashier, were on the witness stand. Mr. Banta proved to be a man with a conscience. When asked in a general way if he knew any irregularities in the company not yet disclosed he volunteered astounding information. It was shown:

1. That at the beginning of 1901 or the end of 1900, \$700,000 of New York city bonds were taken out of the vaults of the New York Life and a check of the Central National bank, of which John A. McCall is a trustee, substituted. These bonds are not taxable, and their possession by the bank at that time of the year enabled it to escape payment of a large sum in taxes. After a few days the bonds were returned to the vaults and the check removed.

Where "Nyllic" Comes In.

2. George W. Perkins, in an effort to explain the payment to him of \$40,000 representing the profits on a loan of \$930,000 made by the New York Life, declared that he turned the money over to "Nyllic," an organization of New York Life agents. He deposited this money to the credit of his personal account, as he did with all of the Nyllic funds. All efforts to trace the final disposition of this money failed. Mr. Perkins said he invested in United States Steel common stock at 19 1/2. He declared that the only record of his operations in behalf of

Nyllic consisted of memoranda which he sometimes carried in his card case or left in his desk.

3. That the \$59,310.79 paid to Andrew Hamilton by J. P. Morgan & Co. out of United States syndicate profits belonging to the New York Life, by order of Mr. Perkins, was the result of directions given him by President John A. McCall.

Favors Supreme Court Justice.

4. That since 1896 Hamilton and Edward E. McCall, now Supreme court justice and brother of President McCall, had notes aggregating \$88,000 discounted by the Central National bank and the New York Security and Trust company between the years 1896 and 1901. All the money obtained by E. E. McCall, it was declared by President McCall, was turned over to Andrew Hamilton. It was spent by Hamilton for the New York Life, he asserted.

5. Neither Mr. Perkins nor Mr. McCall could explain how Morgan & Co., by the payment of \$59,000, were able to take up all of these notes. Of the \$88,000 of notes \$12,000 had previously been paid, leaving a total of \$76,000, which the payment by Morgan & Co. evidently offset. Neither could explain this discrepancy nor how the exact amount paid by Morgan & Co. had been arrived at.

6. It was clearly established that the payment of \$59,000 by Morgan & Co. to Hamilton was kept off the books of the New York Life company. It was established that the payment to Perkins of the \$40,000 which he declared he subsequently turned over to Nyllic was also kept off the books of the New York Life.

## WIFE PROPOSES TO REGAIN HER HUSBAND'S LOST LOVE

Woman Takes A Practical View of Her Husband's Infatuation For  
Another.

[SPECIAL BY SCRIPTS-M'RAE.]

Cincinnati, Ohio, Nov. 28.—"Give him time. He'll get over it." That is the advice Mrs. Marion Hubbell, 528 Hopkins street, gave jealous wives. Her husband, an electrical engineer, is in love with pretty Miss Vesta Hall, aged 17, of Wilmington, Ohio.

Mrs. Hubbell and her husband talked the matter over, and the wife decided she would take a chance on her husband recovering from his infatuation rather than get a divorce.

For a week Miss Hall had been a guest in the Hubbell home. She told stories to the Hubbell children—Norton, aged 7, and Lester, aged 3—she helped Mrs. Hubbell cook supper for the man they both love, and Mrs. Hubbell treated her just as she would any other guest. Miss Hall ended her visit, Hubbell took her home and returned to his work.

Expects Infatuation to Pass.

"I suppose it seems strange to some people," said Mrs. Hubbell, "but I see no reason for separating from my husband just because he is infatuated with a pretty girl. Most men are at one time or another. The only difference is I have my husband's confidence."

"My husband met Miss Hall while in Wilmington last summer. He boarded with Miss Hall's mother. The girl is full of romance. Her love is a matter of imagination; mine is practical. She would never wash, cook, and slave for a poor workman and his two children; but Hubbell doesn't know this. He'll wake up some day, and our home will be as happy as it was before he met Miss Hall."

Man Sympathetic; Girl Loves.

"I have wronged neither of these women," said Hubbell. "They both are good and pure women, and their only fault, if such it can be termed, is that they both love me so well that neither can give me up. My attention to Miss Hall since I knew she loved me so passionately have been only those any man would pay a good girl friend. She simply loves to be with me and near me."

"I would rather die than cease to love him," said Miss Hall. "It makes no difference to me that he is married. When he is away from me my life is like darkness."

AWFUL STORMS SWEEP  
LAKE COASTS LAST NIGHT

Vessels Go Ashore And Are Wrecked At  
Different Points On The  
Coast.

[SPECIAL BY SCRIPTS-M'RAE.]

Superior, Wis., Nov. 28.—The steamer Crescent is ashore near Duluth in a terrific storm, in which the loss to shipping is tremendous. It is a total wreck. Crafts are reported ashore along the Lake Superior coast. This city is swept by a gale unequalled for thirty years. Wires are down and the wind blows seventy miles an hour with no signs of abatement.

At Sheboygan

Sheboygan, Wis., Nov. 28.—A tremendous gale swept this city and destroyed much property of the ship-

pers. Wires are down and a craft is unable to make the harbor and is believed to be lost. Many vessels have been torn from their moorings and the tugs C. N. Ellick and Siden were dashed into a brig and wrecked.

At Milwaukee

Milwaukee, Wis., Nov. 28.—Great damage by the storm in all parts of the state and northern Michigan is reported. Big vessels are ashore and pounding near Port Washington. The concrete breaker in this city is damaged and the light-keeper's house was washed away.

COOPER'S TALK AN INTERESTING ONE

HIS TRIP TO THE PHILIPPINES GRAPHICALLY DESCRIBED.

AN INSIGHT INTO CUSTOMS

Description of the Famous Visit of Secretary Taft Is Well Described.

The storm of last evening doubtless prevented many people from attending the lecture by Congressman Cooper at the Central M. E. church, but those who were present were amply repaid. Mr. Cooper is a good word painter and for two and a half hours he held his audience spellbound. Next to a trip to the Orient, which but few people are able to enjoy, is a description of it by a man who is able to carry an audience with him on the journey, and Mr. Cooper is favored with this rare ability.

From the time the "Maneburia" weighed anchor in San Francisco harbor until the ship returned the voyage was replete with incidents which, when well told, prove very fascinating.

The reception of the Taft party, both in Japan and the Philippines, gave evidence of the marked respect and esteem which is accorded to America, and the courtesies extended were so cordial that the party were deeply impressed with the spirit of loyalty which prompted them.

Mr. Cooper believes that there is a great future for the Filipino and that America holds in her hand the destiny of the far eastern islands. His meeting with Captain Richardson in the Moro section of the islands was of peculiar local interest, as Mr. Richardson is a Janesville boy.

His subject was his trip to the Philippines with the Taft commission last summer. The speaker has excellent ability as a word painter, a love of the beautiful and a vein of humor which enabled him to see many funny and amusing incidents on the trip, which were related in his inimitable manner for the pleasure of his hearers.

After giving a description of the personnel of the party, he most vividly described the scenes of the San Francisco harbor and the beautiful sunset to be seen as they passed out of the Golden Gate.

His description of the entrance of his party into the harbor of Hawaii was very vivid and his hearers certainly saw the flags and banners flying to the breeze and heard the booming of the cannon as the various salutes were fired. He described his trip on the electric railway up to the top of the extinct volcano, how it had been the scene of a final battle years before, and how 12,000 of the inhabitants leaped over the precipice a thousand feet to the bottom, where their bones are now discovered every little while. The sugar industry from the preparation of the soil to the final manufacture of loaf sugar was described as done on a hundred thousand-acre plantation.

He gave a few moments to impress on his hearers the importance of the Sandwich Islands to the United States because of their location. When properly fortified as they will be they will control the whole western coast, because there are no other coaling stations which could be of use to a hostile fleet.

When the party reached Japan and were given the magnificent welcome it received from the inhabitants of that progressive people it must have been the supreme moment in the lives of each one of them. It does not seem, as described by Mr. Cooper, that any other party of voyagers ever received such an ovation. The American flag in Japan means something and is highly honored.

The speaker's description of the habits and customs of the people of Japan was exceedingly interesting.

LIFE SAVED BY FAMOUS PILE CURE

Well-Known Resident of Moline, Ill., Rescued From Death by the Wonderful Pyramid Pile Cure.

To Anyone Sending Name and Address Trial Treatment Will Be Sent To Prove the Truth of Its Great Power.

By every mail we get hundreds of letters like these:

"I will say that two prominent physicians of our city declared that unless I underwent an operation, and that very soon, I was in danger of death. I saw your ad in a newspaper and at once sent for a sample which I received very promptly. I want to tell you that it was the first thing that eased the terrible pain and itching and allowed me to have a night's rest for seven long weeks. My husband immediately went to our drug-gist, Mr. Heinbach, and procured a 50-cent box. I am now cured and will always recommend you highly to every one. You actually saved my life. My mind, too, was almost gone from the pain. Yours gratefully, Mrs. Rosa H. Stouffer, 1605 16th St., Moline, Ill."

The Pyramid Pile Cure quickly and easily cures the worst cases of piles, hemorrhoids, and all kinds of itching, itching and takes away all itching and pain.

Beware of the surgeon's knife. Its results are horrible, often wrecking life and resulting in hemorrhage and death.

Pyramid Pile Cure gives instant relief, you cure yourself in your own home, without being at all disturbed from your work.

It is prepared in the form of "easy to use" suppositories.

A trial treatment will be sent to any one, absolutely free of charge, who send name and address.

After you are satisfied with the sample, you can go to your druggist and get a regular-size treatment for 50 cents, or if he hasn't it, send the money to us and we will send you the treatment at once.

Send your name and address to Pyramid Drug Co., 7441 Pyramid Bldg., Marshall, Mich.

and the luncheon given by the Mikado and the visit to the Imperial gardens were most graphically presented to his hearers.

The party's visit all through the Philippines was one of much interest and replete with scenes and incidents which were presented to its hearers by the speaker in the best of his excellent ability as a word painter.

He paid a high tribute to the advancement made and the inherent worth of the Philippines. They were worthy to them, well educated, while others were very low in the scale of human civilization. They were yet far from being capable of self government. They came to us; we had to take them; and now it is the duty of the people of the United States to do for them the best we can, to help them improve their condition until they become able to care for themselves.

The speaker closed with an able and touching description of a true and noble American citizen, which was very impressive and enthusiastic.

AN UNIQUE SOCIAL EVENT AT EDGERTON

YEAR'S FIRE ALARMS TOTAL FORTY-EIGHT

The Engine Will Either Have to Be Rebuilt or Retired from Service According to Chief Klein's Report.

Chief Klein in his report to the common council last evening called attention to the condition of the fire engine and several other important matters. The communication was as follows: To the Honorable the Mayor and Common Council.

Gentlemen: I herewith submit my quarterly report, showing the condition and requirements of the fire department at this time.

Forty-Eight Alarms. Since the first of January, 1905, the department has responded to forty-eight alarms. Fortunately we have escaped irreparable losses by fire, the fire loss so far this year being far below that of the corresponding time one year ago.

We have been very fortunate in receiving alarms promptly, thus enabling the department to be at the scene of the fire in time to prevent serious loss.

Two Horses Sold. Pursuant to the order passed recently by the common council I have sold two horses. One belonging to the fire department was sold for \$100; the other one which was the property of the police department sold for \$75. The money for the above sales was paid to the city treasurer. Furthermore, I have this day purchased one horse for the use of this department, paying for the same \$250, said horse to be delivered next Tuesday. I would respectfully ask the approval of the same and that the above sum be appropriated, the same being made payable to the city treasurer.

Tracks on River Street. All wagons of the department are at this time in first-class condition. No. 3 fire station is in need of new doors for the wagon entrance. I desire at this time to call the attention of the common council to the tracks on River street, between Wall and Milwaukee streets. These tracks are a very hard matter to back our hook and ladder wagon into the fire station on account of the depression made in the street by reason of shoveling the snow from between the tracks.

Steam Fire-Engine. One of the most important things of which I am compelled to inform the common council is the condition of our steam fire engine. This piece of apparatus is not in the condition it should be to give good service, and its reliability is questionable. The apparatus has been in the company twenty-one years. The service and treatment this machine has passed through has left many defects upon it, and I fear it cannot be placed in the condition it should be to give good and reliable service without giving the same a general overhauling. To have this done properly it will be necessary to send the same to a factory where they make a business of doing this class of work. This machine in its present condition is only capable of throwing two-thirds the amount of water it should according to its size and rating, and as said before its reliability is questionable on account of the boiler being old and leaky. Believing from recent happenings it would be very unwise to allow this engine to remain in its present condition or to relegate the same from service, I would respectfully suggest that authority be given to the fire and water committee to act in this matter, and if all judgment it would seem to them advisable to rebuild this engine, that the same be done at once.

Respectfully submitted, HENRY C. KLEIN, Chief Engineer.

Janesville, Wis., November 27, 1905.

REV. MARY KIMBALL ADDRESSES COUNCIL

Asks That the Taxes Levied Against Mission Property on South Jackson St. Be Remitted.

Rev. Mary Kimball appeared before the city council last evening to ask that the taxes levied against the mission property on South Jackson street be rescinded. This appears to have been done for five years past, but this year the property was again listed for taxation. Rev. Kimball said that she had given her life, health and strength to the mission work, and that what she did was done for love of the work and the city of Janesville. Inasmuch as she was ordained as a missionary on Oct. 20, 1898, she was unable to understand why the mission property should be taxed when churches were exempt. Ald. Merritt asked the city attorney if the council had the power to remit taxes. City Atty. Burpee replied that it could only do so in case of error. He said that the property had been deeded to the Free Will Baptist trustees in 1899, with life use by the present occupant reserved. Rev. Kimball said that she intended that the property should be left as a mission, when she should be laid aside and that it would always remain a mission. Mayor Hutchinson referred the whole matter to the judiciary committee for consideration and subsequent report.

TELEPHONE COS' TIME EXTENDED

WIRES MUST BE UP 40 FEET BY APRIL FIRST.

PATROL WAGON FOR POLICE

Appropriation of \$300 for Vehicle, Made by City Council Last Evening—Other Important Business.

Reporting on the investigation of the wires in the business section of the city at the meeting of the city council last evening, Chairman Merritt of the judiciary committee stated that those of both the Electric Light and Telephone companies on Milwaukee and South Main street had been found to be in accordance with the 40-foot ordinance. On North Main street, however, the wires were found to be strung about 35 feet from the ground and on N. Franklin, Bluff, and Wall streets they were but 32 feet. The surface and guy wires running to buildings formed dangerous obstructions in many instances and the committee recommended that they be changed as soon as possible under the direction of the chief engineer. It was further recommended that the Wisconsin and Rock County Telephone Cos. be given until next April to make the other necessary changes. The report was adopted.

Orders on the Treasurer. Chairman Jackson of the finance committee submitted the reports on bills and the salary list. He also introduced several orders which were passed. One of them authorized the transfer from the several ward funds to the general fund for improvements on East and West Milwaukee streets, of the following sums: 1st Wd.—\$226.47; 2d Wd.—\$249.40; 5th Wd.—\$198.55; 3d Wd.—\$378.70. Another authorized the city clerk to draw on the city treasurer in favor of the Rock County Nat'l bank as assignee of Elzy & Dunn, as follows: 3d Wd. fund—\$72.44; 5th Wd. fund—\$386.23, said amounts being the balance due contractors for the paving of East and West Milwaukee streets.

\$2,450 Tribute to County. The city clerk was instructed to draw on the city treasurer in favor of the treasurer of Rock county for the sum of \$2,450, the amount due said county from the 46 saloons and three brewery license fees for 1905. He was also authorized to draw on the treasurer in favor of the Janesville Water Co. for \$2,550, the same being due for hydrant rental from Jan. 1 to Dec. 1, 1905. On motion of Ald. Murray orders on the treasurer in favor of the Rock County Nat'l bank, assignee of Elzy & Dunn, for improvements on Milwaukee avenue were made payable from the following funds: General—\$121.01; 2d Wd.—\$56.35; 3d Wd.—\$836.68.

Milwaukee Ave. Cost \$4,043.86. A report on the assessment of benefits and damages for the Milwaukee avenue improvements between East and Harrison street intersections and a resolution calling for orders on the treasurer in favor of the Rock County Nat'l bank, were adopted. The total cost of the improvements was \$1,043.86. Of this sum \$3,000.42 was assessable to property, especially benefited and amounts were due from the several funds as set forth in Ald. Murray's motion outlined above. On motion of Chairman Council of the fire and water committee it was directed that an order for \$400 be drawn on the fire and water fund, payable to the treasurer, for the purchase of a team of horses for the fire department.

Curtis Addition to City. Chairman Baumann of the committee on sewers asked for further time for the consideration of the report of Hanrahan & Johnston and announced that there would be a meeting of his committee at the city hall this afternoon. Orders on the treasurer in favor of M. J. Bouson were directed drawn as follows: \$485.39 in part payment on his contract for work in sewer district No. 5; and \$154.15 from the fund of district No. 11 to correct a clerical error. On motion of Ald. Hager the plat of the Curtis addition to Janesville, located at the intersection of Center and Eastern avenues, was adopted.

Flagman on Western Ave. An ordinance introduced by Ald. Murray and given its first and second reading requires both the C. & N. W. and the C. M. & St. P. Ry. Cos. to maintain flagmen at their Western avenue crossings from 6 a. m. to 5 p. m., or in lieu thereof to operate electric crossing bells, and provides a \$100 fine for failure to comply after notice in writing has been served by the city marshal and \$100 a day additional for each 24 hours of neglect to comply after the service of said notice. City Attorney Burpee was not prepared to report on the legality of increasing City Engineer McCarty's salary, as proposed at a special meeting held last week. City Engineer Kerch was instructed to file a grade crossing on Vernon ave. The street commissioner was instructed to build brick crosswalks on Carle and Adams streets and Forest ave., on the north side of State.

To Buy Patrol Wagon. By an order the purchase of a wagon for the use of the police at a cost not to exceed \$300 was authorized and a sum not exceeding \$20 was allotted to pay the expense of sending Alderman Fish and City Marshal Appleby to Chicago to investigate and report.

Michael Murphy Discharged. Ald. Jackson called attention to the fact that the city was paying a man \$1.50 a day the year around to work at the city dump on the Richardson land and that during the winter, especially, he had nothing to do. He moved that Michael Murphy be discharged and that the dump be placed in charge of the street commissioner. Motion carried.

Cheaper Feed For Horses. He also objected to the paying of \$15 a month for the feed, not moving the care of a horse, and moved that the street commissioner seek more reasonable accommodations. Motion carried. All the aldermen were present at the meeting.

SECOND CONCERT OF APOLLO CLUB

Delighted a Large Audience at Library Hall Last Evening—Miss Runkel Principal Singer.

There can be no doubt that the Apollo Club, recently organized by music-lovers of Janesville for the purpose of gratifying and encouraging taste for this form of expression of the beautiful in life and of fostering native talent and genius, is going to fulfill its mission. Despite the inclement weather the attendance at the second concert last evening was almost as large as at the first, demonstrating the interest that has been aroused in the work. The program was arranged by Miss Ada Pond and Miss Lulu L. Runkel of Chicago was the singer of the evening. In her sweet and sympathetic voice, her charming personality, and the versatile range of selections, she exceeded all expectation. Wickie's Heart's Springtime, Nevin's My Desire, and Hawley's Daisies, were some of the numbers brilliantly rendered. The work of the quartette composed of Mrs. J. G. Rexford, Mrs. C. L. Clark, Frank B. Smith, and George Paris; and the quintette composed of Miss Pond, Miss Burch, Mrs. Clark, Mrs. Taylor and Mrs. Putnam, as well as the instrumental numbers by Mrs. P. F. Lewis, and Miss Pond, S. H. Hayner, and others were all exceptionally pleasing.

## = FORTY YEARS AGO =

Janesville Daily Gazette, Tuesday, November 28, 1865.—City Items.—At a meeting of the Baptist Society last evening, to decide upon the site of their new church edifice, the lot on the northeast corner of Jackson and Pleasant streets, was unanimously decided upon as being the most desirable. The purchase of it has already been effected for \$3,500. The brick house upon it at present is to be removed to make room for the new church building. The society has undoubtedly made a wise choice in their decision of this matter. The lot is admirably located, is central in position, and will therefore accommodate the largest number of that congregation. If the new church edifice corresponds in beauty with the desirableness of the lot, as we have no doubt it will, it will be an ornament to any city.

Our fine weather gave way this morning to a snow storm which threatened great things, but which amounted to very little. The promise now seems to be for rain.

A private letter from an officer in the 12th regiment, states that the order for the muster out of that organization has been revoked, for which

reason it is not known. The writer says Fairchild's majority in the regiment is about 150. For suffrage 25; against suffrage, 750.

"Thou Canst Not Say I Did It." The returns of the recent election show that the largest vote given for the extension of the right of suffrage in this state, was cast in Rock county. True to her noble and manly instincts, Old Rock County always justifies the expectations of her friends and never fails to honor every call that may be reasonably made upon her loyalty to republican principles. Although that question was lost through the timidity of professional friends, "Thou Canst Not Say I Did It."

Yesterday afternoon as G. A. Slocum's younger brother was crossing the railroad track on Jackson street, with horse and buggy, a passing train struck the back wheel of the carriage and knocked it all to smithereens. The boy and the horse escaped without injury. Unless a person is in a very great hurry, it is quite as safe to wait at a respectable distance when trains are under motion.

## ..COMING ATTRACTIONS..

Kilroy and Britton's new play in which they will be seen at the Myers

Grand for one performance only on next Wednesday evening, styled "An Aristocratic Tramp," is from the pen of Lou Barker, author of "For Home and Honor," "A Quaker Wedding," "The Sinking City," and a dozen other very popular successes. "An Aristocratic Tramp" is far above the average tramp show in every respect, and contains more features in one single act than all other so-called tramp shows in four. The scenic effects are gorgeously correct, while the cast is made up of the very best dramatic talent New York affords. There are seven big specialty features in addition to the regular company, making the entire production second to nothing of this class traveling and their reception here should be a

hearty one to say the least.

Hanford and Hart will present "The Kerry Fair," their new Irish play at the Myers Grand, Thursday November 30, matinee and evening. Mr. Hanford playing the part of a true Irish boy, and Miss Hart that of a sweet colleen. Both these artists are well known from ocean to ocean, having portrayed Irish characters for many years. The play "The Kerry Fair," is written to please all classes of theatre goers, and indulges in a new style presentation of Irish play. It is thoroughly modern in every respect and detail, having departed from the old style of costuming characters—plots—red coats—landlords, etc., making "The Kerry Fair" a strictly up-to-date play, and depicting life as it is today in the old country.

**BAKER MANUFACTURING PLANT AT EVANSVILLE HAS BARE ESCAPE FROM DESTRUCTION BY FIRE**

Explosion in Paint Shop Starts Flames—Employees' Department Proves Equal to Occasion.

(Special to the Gazette.)

Evansville, Nov. 28.—On Saturday evening about five o'clock there was considerable excitement at the Baker Mfg. Co.'s works. It was feared for a time that there would be a serious fire. One of the employees was drawing some boiler paint and upon lighting a match an explosion followed. The fire at once spread to the side of the paint shop, where there was several shelves. Fortunately the employees of the company have formed a fire company. The alarm was turned in and the fire was soon extinguished with but little damage.

**Rural Play Booked**

"The Folks up Willow Creek" will appear in the opera-house Friday night, Dec. 1st.

Oats—\$1.00 \$1.25 per bu.

Poultry, live, 10 to 15 cents; old fowls to 10 cents.

Ducks, dressed—10c 1/2.

Turkeys, dressed—15 to 18c.

Turkeys, live—15 to 15c.

Veal calves, 5 to 5 1/2c.

December wheat advanced 3/4c yesterday, closing at 37 1/2c. December corn closed at 1/2c over Saturday. Oats remain unchanged. Speculative interest in provisions increased with slight advances. There are several changes in our local markets, as shown above. There is considerable corn being offered at present and prices a little lower than last week. There is a good demand for strictly good oats, but most of the offerings are colored with more or less sweet and fount seeds, which hurts the price. There are liberal offerings of hay and straw, both loose and baled. Yet the prices remain firm for a No. 1 article. Fresh eggs are in good demand. Chickens are being offered freely and prices are declining. Turkeys, as usual, are very scarce and bringing good prices for the few offered. Potatoes are being supplied almost entirely from abroad in car lots.

## International Live Stock Exposition, Chicago, December 16th to 23rd.

In order to arrange for better facilities in handling the large attendance anticipated for this great annual event and on account of the inability of the builders to complete the magnificent new amphitheatre on time, it has been found necessary to postpone the Exposition until the dates above mentioned. All of the events advertised will be held on the days of the week corresponding to the dates arranged for the previous week. All preparations are being made to make the event one long to be remembered. The change in the date will bring it at a season of the year when it will no doubt be more convenient for a larger number to attend.

## MARSHALL FIELD, JR., IS DEAD

Son of Chicago Merchant Yields to Effect of Pistol Shot.

Chicago, Ill., Nov. 28.—Marshall Field, Jr., died at 5 o'clock Monday afternoon at Mercy hospital. He passed away quietly and almost without pain. He was conscious to the last and knew for hours the fate that was in store for him. With him at the time of his death were his father and his wife. Other members of his family were in the room adjoining, but were not at his bedside. Paralysis was the immediate cause of the death of the heir to the Field millions. As the physicians feared, they were unable to prevent it from spreading and it finally reached the vitals.

## WEATHER FORECAST

Showers; colder.

"Making a mull of a thing" is the Scotch phrase for a man who shows little discretion, who wastes his ammunition, who mixes and muddles an enterprise. Many a merchant makes a "mull" of a store-venture by wasting his publicity ammunition.

No state tax this year, and money to burn, with more railroad legislation in sight.

The life of a congressman is not all sunshine. If you doubt the statement ask Cooper.

If gratitude is recognized in the Beloit post-office contest, Mr. Ingersoll will be reappointed.

The legislature will do well to give the governor a clean field for his foot-race for the presidency in 1908.

"Who pays the freight for the extra session of the legislature?" is the question just now agitating the minds of the people.

The time to run for the post-office, is now. There won't be another chance in four years. Interested parties please take notice. No conservative republican need apply.

Name the La Follette men in the city, and you can name the candidates for post-office. The coterie is not very large but there will be some disappointments.

If Uncle Ike Stephenson don't go to the senate he proposes to know why. It is about time the old gentleman knew where to get off. He has certainly paid for the information.

The legislature should arrange for a Christmas dinner in the capitol park. The session will be cleverly under way by that time. The members will be in luck if they get home in time for the spring plowing.

There ought to be a commissary department in the basement of the capitol for the benefit of the men who are obliged to work all winter without pay.

When the political program is announced, the people will know why the legislature is called together in extra session. The government's machine is in danger and an effort will be made to patch it up.

The Chicago Chronicle is awake to the ridiculous situation in Wisconsin and the paper is having a good deal of fun with the badger state governor. The Chronicle is the best republican paper in Chicago, and well worth reading.

With the number of post-office candidates in sight it has been suggested that Mr. Cooper will need time to decide. It may become necessary for the aspirants to make a pilgrimage to Washington after congress convenes. In that event, a special car should be chartered for all the applicants. The trip would be inspired by song and oratory, and a general good time would result.

Only one candidate will succeed in securing the post-office. Disappointed applicants might gain a little satisfaction in applying the principles of Christian Science. Stick up a few pigeon holes, imagine you have the office, and there you are. There's nothing like taking a cheerful view of the situation. A real post-office is a good deal of annoyance at best.

## NO MORE SILVER DOLLARS.

Mint Director Roberts reports that all the silver bullion purchased under the acts of 1873 and 1890, is now exhausted, says the Chicago Chronicle, and no more silver dollars will be coined unless congress provides for their coinage by legislation.

From present appearances it is extremely unlikely that congress will order the coinage of any more. The country has suffered enough from the menace of a degradation of the standard.

Congress became convinced of that in 1900 and passed a law recognizing gold as the standard money metal and doing away with the fiction of a double standard. It will not be an easy matter to secure the repeal of that law, and until it is repealed,

there will be no demand for more silver dollars.

Director Roberts states that the total issue of these coins since the establishment of our mint has been 578,000,000. Of these only about 8,000,000 were issued before "the crime of '73" was committed; that is, before congress ordered that the silver dollar be dropped from our list of coins as one which had never been in general use and for which there was no demand. Up to that time the coinage of silver dollars had been no private account. That is to say, persons who wanted those dollars deposited the bullion at the mint and the government caused it to be coined for them. The reason, therefore, that so few had been coined was that they were not wanted.

In 1873 on the demand of the silver agitators congress ordered the purchase of bullion by the government for this coinage and in 1890 it ordered larger purchases. The result was that this compulsory coinage was over-seventy-one times as great in twenty-seven years as the coinage on demand of the people had been in eighty years.

That is what the result was. The result now is that we have about \$570,000,000 of silver currency which is more than half credit or, rather, fiat because there is no express promise of redemption on demand.

Not only do we want no more of it but we would be better off with less.

It would be wise to take advantage of a rising market for silver bullion to dispose of these coins and thus give greater stability to our monetary system.

## GOOD ADVICE.

Harper's Weekly offers the following sensible advice to policy holders in old line life insurance companies.

"We are amazed to learn upon good authority that there have developed two phases of the insurance situation which seriously reflect upon the hard sense of a good many presumably intelligent Americans. (1) Hundreds, even thousands, are permitting their policies to lapse. This is so stupid as to be, from the standpoint of pure self-interest, almost criminal. There is no question and has been and can be no question of the solvency of the companies. Enough has developed to prove beyond the shadow of doubt that the total of monies wasted and not earned that might have been earned is a bagatelle in proportion to the enormous assets. Every dollar of insurance outstanding is good as gold whether a new policy ever be written or not. It is the uttermost folly, therefore, for any one to sacrifice the slightest portion of what he has paid in. To continue the payment of premiums and demand restitution and reform is the only sane policy. (2) Thousands of policy-holders are sending their proxies to Thomas W. Lawson. They would better send them to the devil himself. If the wit of man were exercised to find a way to wreck, if possible, a solvent concern, one more effective than this could not be devised. No right-thinking person can condone proven offences, but such a jump as this would be from the frying-pan into the fire, but into the bottomless pit. That same beings of any number likely to prove adequate to his purpose should intrust their property and the future sustenance of their beneficiaries to a professional, utterly unscrupulous speculator seems incredible. And yet the danger is said to be real and imminent. We hope and believe it is magnified by unwarranted boastfulness on the one hand and by distorted imagination on the other. But the interests involved are so vast and so widespread that no patriotic citizen should spare any possible effort to save credulous thousands from their own rash action. It is possibly true that insurance officials have become so discredited as to be impotent in withstanding the force of a wave of insanity. It is high time for the formation of a National Vigilance Committee in the interest of the whole people."

This advice should be heeded by every man who has paid good money for protection to the mutual companies now under fire in New York. If these companies never write another dollar's worth of business, every liability will be met as it becomes due, for the reserve fund, for the protection of policy-holders, is secured by law and unimpaired.

The great surplus, which represents the fund from which expenses and dividends are paid, is not a part of this reserve, and is never so considered except for advertising purposes. When one of these companies advertises a surplus of several hundred million dollars, it includes both reserve and surplus, but the reserve is set aside to meet death liabilities, and can be used for no other purpose.

What the paper has to say about Tom Lawson's proxies, is also true. Lawson is a wrecker and disturber, and it will be a sorry day for all life insurance companies, should he gain control. The investigation now going on will not end until the companies involved are placed in the hands of careful and conservative management.

In the meantime policy-holders should keep up their premiums, and when the companies are again ready for business, after a thorough house-cleaning, liberal dividends will follow.

Some Society Notes.  
(Harper's Weekly.)

At the horse show: Miss Majolica wore a neat saddle in the prevailing shade of leather-brown. It was cut to fit snugly just below the shoulders, with stirrings in yellow thread. The giraffe was of white webbing, drawn tight to set off the figure. Her hair was worn in quite a long bang. Lady Catchemup was resplendent in black with silver trimmings. She wore a large black collar settling well down

over her neck. For a train she wore a shiny Victoria. Mrs. June Morning of Kentucky, who was present, with her daughter and two sons, attracted much attention by reason of the simplicity of her toilet. It consisted of a band of white tape-like stuff which was carried by her groom. The youngest of her children wore nothing at all.

## PRESS COMMENT.

In Terminus He Will Comprehend.  
Chicago Tribune: The sultan's knowledge of the European tongues may be limited, but he will be able, doubtless, to understand the language used by the warships.

Without Guarantee of Gore.  
Green Bay Gazette: The price of seats at the Michigan-Chicago football game went up to \$10 a seat. And that, too, without the guarantee of a fatality.

Until Eleven is Uncorked.  
Milwaukee Sentinel: The members of the legislature will be expected to take the first ten items in the call for a special session seriously until the cork is taken out of "No. 11."

That's What's the Matter.  
Exchange: A Kansas philosopher says that when a married woman uses her given name instead of her husband's initials something is wrong. In most cases probably it is the husband.

One Ambulance in Milwaukee.  
Fond du Lac Commonwealth: The Journal complains because Milwaukee, a city of 325,000 inhabitants, has only one ambulance or just half as many as there are in Fond du Lac. It is evidently time for the metropolis of the state to wake up.

A Very Quick Country.  
Chicago Record-Herald: While on his way back to South Africa General Cronje stopped off in London recently, and giving his impressions of this country, said: "Very big; very fine, very quick." Yes, our country is, indeed, quick. One might almost say sudden.

Credit Due Dougherty.  
Exchange: Anyhow, Newton C. Dougherty, ex-superintendent of the Peoria city schools, ex-bank president and ex-president of the National Educational Association, deserves some credit for pleading guilty and thus saving the country the unnecessary expense of a trial.

Whispered to a Tired Angel.  
Exchange: And so it seems that Governor La Follette has again been whispering something nice into the ear of "Uncle Ike." Which is a reminder that only a few short weeks ago it was quietly rumored Mr. Stephenson was getting tired of playing angel for reform, and was contemplating a change of policy after the first of the coming year which would seriously affect the organ of the governor.

When the Medicine Fails.  
Oshkosh Northwestern: Unquestionably Governor La Follette has gained many friends who admire him for the wonderful success he has achieved in the face of extraordinary opposition. At the same time even these admirers are aware of the fact that exceptionally brilliant and phenomenal careers, such as they are, are wont to ascribe to La Follette, are usually brought to a sudden and abrupt ending when "the medicine" fails.

Battleship Oregon, Doomed.  
Fond du Lac Commonwealth: The short life of the great battleships is indicated by the story that the Oregon, which will always remain famous in history, is soon to be overhauled and then put in the second line of defense in home waters, which is one step nearer the scrap pile. The famous voyage of the Oregon around Cape Horn, during the Spanish American war, and its arrival in the battle to take a leading part in the battle of Santiago, constitutes one of the most phenomenal feats ever accomplished in naval warfare. And yet this warship, which made the voyage of thousands of miles without so much as loosening a bolt, is in less than a decade to be relegated to the line of inferior vessels.

How Milwaukee Humbled Him.  
Madison Journal: Charlie Crossie, the genial Soughton editor has a philosophy of his own. While in Milwaukee the other day, he said: "I have formed a plan of visiting the metropolis about twice a year, and find that it suffices to give me a rest from the routine of business life. There is a lot of philosophy in knowing how to appreciate changes, and while I don't care for your electric lights, fms and hurry as a steady diet it sort of does me good to get hustled along. The city arouses one's antagonism, as it were, and you wonder who the folks are that you meet and what their hurry is all about anyway. While there I joined several others from Stoughton, and we thought ourselves hurrying along as though we really had business here when really we had no more than a moral thing to do but enjoy ourselves, going to the theatres and taking in the sights."

Even When Gently Judged.  
Sheboygan Journal: Far be it from any good Wisconsin citizen to criticize the motives and statesmanship of the great and good Governor La Follette, but coming just at the time when a boom is being started simultaneously in all parts of the state for a gentleman to whom it is believed Governor La Follette already has started to hand over his shoes, the extra session of the Wisconsin legislature looks a little suspicious. In the first place the new laws which Governor La Follette had passed last winter scarcely have had a fair trial and it is impossible for the governor or any other citizen to foresee how they will work. It is clearly too early to modify them unless the tinkering process is to go on indefinitely. To call the legislature together to discuss the capitol question looks like spending a good deal of money for a comparatively small object. The senatorship has been settled. Even the governor's friends must acknowledge that an extra session at this time looks like an effort to line up members of the legislature for a political campaign next summer.

[SPECIAL BY ASSOCIATED PRESS.]  
Chicago, Ill., Nov. 28.—The police are investigating the death of Strong Dalton, a son of the founder of Dalton, Illinois. The young man was found dead this morning near Dalton on the tracks with his head crushed, either by a train or a club, but the local officials think the wound could not have been made by a train. It is suspected he was murdered and his body placed on the track to hide the crime.

"Ch. Doctor, what did you wake me up for?" said a man the other day in the dentist's office. "I haven't been back to Norway in seven years and I was just getting off the steamer at Christiania, to see my folks, when you waked me up."

He had been taking vitalized air under Dr. Richards' care and having his teeth extracted.

Instead of suffering pain he was ENJOYING himself while his teeth were being pulled.

Rather pleasant, isn't it, to be able to escape pain that way?

LEGION OF FRIENDS  
PAID LAST RESPECTS

Funeral Services for Late Arthur W. Campbell Were Held This Morning—Sad Tidings from Coal City.

Janesville friends of the late Arthur W. Campbell paid their last respects to his memory this morning. The services were held at the home on Washington street at nine o'clock and the number of mourners and the many beautiful floral offerings bore eloquent tribute to the high esteem in which he was held. Dr. McCleskey led in prayer and Mrs. Clark and Mrs. Yates sang the two hymns, "Crossing the Bar" and "Asleep in Jesus." Rev. J. H. Tippet spoke of the loss to the business community in the passing of this clear, energetic, and ambitious young man; of the loss to the church and Sunday school, the Young Men's Christian Association and other organizations with which he was identified; and the loss to his home and family—the greatest of all losses. Other men and women would have to bear the burdens and responsibilities he had laid aside. The whole care of a child would devolve upon the mother. But the world's loss was his gain—he had passed from this life into a happier one. With exception of Mr. Peet of Beloit the pallbearers were all employees of the deceased. They were Louis Skavlem, W. A. Walworth, James Reed, Will Harris, Fred Roeger, Julius Splinter, Herman Peske and J. D. Peet.

The remains were taken on the 10:30 a. m. train to Coal City, Ill., where the parents of the deceased reside. The final services and burial will take place there tomorrow afternoon at one o'clock.

Word received from Coal City this morning was to the effect that Mrs. Campbell, the mother of the late Arthur W. Campbell, who has been critically ill with pneumonia, is no better.

## LEVI MOSES, SR., IS CLAIMED BY DEATH

Summons Came Late Yesterday Afternoon—Came to Janesville in 1848.

After an illness of many weeks' duration, Levi Moses, Sr., passed away yesterday afternoon at half-past four o'clock. He was born in Landisburgh, Perry county, Pennsylvania, in 1825. When yet very young he learned the cabinet-maker's trade and followed the furniture business up to his last sickness. The deceased came to Janesville in 1848 and for many years was connected with the retail and wholesale furniture business of this city. He was also identified with the same trade in Dixon, Illinois, and Chicago. There are left to mourn his death three sons and one daughter—E. B. Moses of Lake Charles, Louisiana, Miss Clara Moses, Levi Moses, Jr., and Frank Moses, of this city; one niece, Mabel Moses, and one nephew, Frank Moses, both of Janesville. He also leaves a brother, Samuel H. Moses, of Duncan, Pennsylvania, and a sister, Mrs. Sarah Miller, of Landisburgh, Pennsylvania. The funeral will be held from the residence of his son, Frank Moses, 150 South High street, Wednesday morning at ten o'clock. The services are to be private.

Raburn Charles, the two-months-old son of Mr. and Mrs. William Charles died shortly before one o'clock this afternoon, at the home of the parents, on North Main street. Mr. Charles arrived home this morning from an absence of several months, having been serving as a cook with Ringling brothers' circus. The bereaved parents have a host of friends who will extend their sincere sympathy. The funeral will be held tomorrow afternoon at two o'clock from the house.

MISS GENEVIEVE CONWAY  
While all the country watched with interest the news from the bedside of Marshall Field, Jr., who accidentally shot himself in his own home, Miss Genevieve Conway, a Janesville young lady, was at the bedside of the dying man in her capacity as nurse. Miss Conway is the daughter of Mr. and Mrs. John Conway of this city and graduated from the Janesville High School with the class of '37. She studied for two years at the University of Minnesota

and later was employed as a stenographer in an office in the city. She then went to Chicago, where she entered Mercy hospital and has since graduated as a trained nurse. Miss Conway has come into prominence through her connection with the Field case, but to the medical profession who use Mercy hospital she has long been known as a skillful and careful nurse.

Special Communication  
There will be a special communication to Western Star Lodge No. 14, P. & A. M., at 7:30 o'clock this evening.

Last night's wind and rain-storm did considerable damage to telegraph and telephone wires throughout this section of the country. Wires were blown down and twisted, blocking lines and compelling the re-transmission of messages. In the north the storm took the form of a blizzard and reports in the railroads yards this morning were to the effect that at Elroy five or six inches of snow fell. The trains into Janesville from that direction were greatly delayed by the storm. The passenger over the North-Western which should have arrived here at 9:15 was two hours and fifteen minutes late. On the same road the 4:35 passed through at 5:15, the 4:55 at 6:10 and the 6:15 at 8:20.

HEAD-END COLLISION AT EDGERTON LAST EVENING  
Two Freighters Smash Into Each Other and Engines Are Wrecked Badly.  
Last evening at ten o'clock a stock freight coming south from Madison ran into a misplaced switch in the Edgerton yards and smashed into an extra freight going north that was standing on the switch. The head brakeman of the stock freight saw the light of the extra just in time to warn his engineer and fireman and the three men jumped to safety. The engineer and fireman of the extra also jumped and aside from bruises no one was injured. The first car on the stock train was loaded with hogs and many were killed. Other cars fell over onto the main track, blocking it until seven this morning.

JANESVILLE HUMANE SOCIETY WILL NOT BE REPRESENTED  
State Meeting to Be Held in Milwaukee Tonight—No Delegates From Here Appointed.  
Owing to a misunderstanding in the local ranks there will be no delegates from Janesville at the annual state meeting of the Humane Society, to be held in the Plankinton Hotel, Milwaukee, this evening. For the last two years the Bower City has been represented by Miss Millie Chittenden, secretary, and Mrs. J. W. Peters, collector. This year the annual meeting of the Janesville society has not as yet been called, and consequently no delegates have been appointed.

Candidates for Janesville Post Office Met Congressman Cooper Today.

Congressman Cooper has been a very busy man since his arrival here yesterday. What with a lecture last evening and his many interviews with aspirants for the postoffice jobs at his disposal, he has lived a strenuous life. Last evening Postmaster Nowlan gave a dinner in his honor at the Myers hotel. Those present were Congressman Cooper, A. P. Burnham, Stuart Hedges, E. F. Carpenter, J. A. Dennison, J. L. Risher and Oscar Nolan. Later Mr. Cooper was visited by many of his administration friends in the office of the hotel. The great rush, however, came this morning at the postoffice where he met the different petitions for the postoffice job and heard their credentials and qualifications for the office. It was amusing to witness the enthusiasm with which the different candidates presented their claims. Mr. Cooper was noncommittal and doubtless his recommendation will not be made until he has heard from the Governor.

## Cut Glass.

By pooling our order for cut glass with one of the largest jewelry houses in Milwaukee, who are intimate friends of ours, we have been able to secure a very fine lot at prices very much lower than could be secured by concerns in cities the size of Janesville. It also gives us the experience of an old and reliable firm in selecting our glass, and enables us to quote same prices and offer same high-grade cut glass as in the large cities. Every piece bears the cutters' trademark. Would be glad to show you.

## A JOKE FOR SMOKERS

Try it on Your Bald-Headed Friends and Have a Laugh.

If you smoke a cigar that burns with good solid ashes that will not fall off until the cigar is half smoked up, such a cigar as the Wadsworth Bros' Chicos, sold by the Smith Drug Co., you can have a good joke on some bald-headed friend.

When there is an inch or two of ash on the end of the cigar just let it fall on that bald head and see how high it can jump. The ashes are not hot enough to burn, but they are warm enough to be felt.

The Chicos are a real ten-cent Havana filled cigar that the Smith Drug Co. sell for a nickel, and is the only 5c cigar where the ashes are firm and solid like those of expensive grades. You will enjoy a Chico anyway, so try one and see how good it is.

## BRIEF NEWS FROM OLD ROCK.

## MILTON.

Milton, Nov. 28.—The fine weather for farmers continues and the balance of humanity is enjoying it. The most of the best growers have finished delivering, but there are a few growers at the tail end of the procession as usual. Many carloads are piled on the park to be shipped at the option of the factory. The average yield per acre is much less than last year, but the sugar test averages better, still many of the growers talk that they will not grow beets next season, but many change their minds when April showers come.

## YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasite germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busy at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## CURES GRIP

## TIME TO ACT.

Don't Wait for the Fatal Stages of Kidney Illness. Profit by Janesville People's Experiences.

Occasional attacks of backache, irregular urination, headaches and dizzy spells are common early symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a long time, but return with greater intensity. If there are symptoms of dropsy—puffy swellings below the eyes, bloating of limbs or ankles, or any other part of the body, don't delay a minute. Begin taking Doan's Kidney Pills, and keep up the treatment until the kidneys are well, when your old-time health and vigor will return. Cures in Janesville prove the effectiveness of this great kidney remedy.

Mrs. R. M. Wilson, of 202 Mineral Point Ave., Janesville, Wis., says: "I had been suffering with my back for a number of years. I had constant pain in the loins and I felt so generally weak and run-down that I often felt that I could not keep up. I used liniments and other remedies that did not help me, and finally, seeing Doan's Kidney Pills highly recommended in our papers, I sent to the People's Drug Co., and got a box and began using them. A few doses were sufficient to rid me of the pain and I continued taking the remedy until entirely cured. My son found the same satisfaction in using them for bladder-trouble as he has been entirely free from it since using Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

## CHAPTER V.

THE coroner dismissed the jury and came down and shook hands with us.

"I'm going to reward you for your clever work, Mr. Royce," he said. "Will you take the good news to Miss Holladay?"

My chief could not repress the swift flush of pleasure which reddened his cheeks, but he managed to speak unconcernedly.

"Why, yes; certainly. I'll be glad to, if you wish it," he said.

"I do wish it," Goldberg assured him, with a tact and penetration I thought admirable. "You may dismiss the policeman who is with her."

Our junior looked inquiringly at the district attorney.

"Before I go," he said, "may I ask what you intend doing, sir?"

"I intend finding the writer of that note," answered Singleton, smiling.

"But, about Miss Holladay?"

Singleton tapped his lips thoughtfully with his pencil.

"Before I answer," he said at last, "I should like to go with you and ask her one question."

"Very well," assented Mr. Royce instantly and led the way to the room where Miss Holladay awaited us.

She rose with flushing face as we entered and stood looking at us without speaking; but, despite her admirable composure, I could guess how she was racked with anxiety.

"Miss Holladay," began my chief, "this is Mr. Singleton, the district attorney, who wishes to ask you a few questions."

"One question only," corrected Singleton, bowing. "Were you at your father's office yesterday afternoon, Miss Holladay?"

"No, sir," she answered instantly and emphatically. "I have not been near my father's office for more than a week."

I saw him study her for a moment, then he bowed again.

"That is all," he said. "I don't think the evidence justifies me in holding her, Mr. Royce," and he left the room.

I followed him, for I knew that I had no further part in our junior's errand. I went back to our table and busied myself gathering together our belongings. The room had gradually cleared and at the end of ten minutes only the coroner and his clerk remained.

They had another case, it seemed, to open in the morning—another case which perhaps involved just as great heartache and anguish as ours had.

Five minutes later my chief came hurrying back to me and a glance at his beaming eyes told me how he had been welcomed.

"Miss Holladay has started home with her maid," he said. "She asked me to thank you for her for the great work you did this afternoon, Lester. I told her it was really you who had done everything. Yes, it was," he added, answering my gesture of denial.

"While I was groping helplessly around in the dark you found the way to the light. But come; we must get back to the office."

We found a cab at the curb and in a moment were rolling back over the route we had traversed that morning—ages ago, as it seemed to me! It was only a few minutes after 3 o'clock and I reflected that I should yet have time to complete the papers in the Hurd case before leaving for the night.

Mr. Graham was still at his desk, and he at once demanded an account of the hearing. I went back to my work, and so caught only a word here and there—enough, however, to show me that our senior was deeply interested in this extraordinary affair. As for me, I put all thought of it resolutely from me and devoted myself to the work in hand. It was done at last, and I locked my desk with a sigh of relief. Mr. Graham nodded to me kindly as I passed out, and I left the office with the comfortable feeling that I had done a good day's work for myself as well as for my employers.

A man who had apparently been loitering in the hall followed me into the elevator.

"This is Mr. Lester, isn't it?" he asked as the car started to descend.

"Yes," I said, looking at him in surprise. He was well dressed, with alert eyes and strong, pleasing face. I had never seen him before.

"And you're going to dinner, aren't you, Mr. Lester?" he continued.

"Yes—to dinner," I assented, more and more surprised.

"Now, don't think me impudent," he said, smiling at my look of amazement, "but I want you to dine with me this evening. I can promise you as good a meal as you will get at most places in New York."

"But I'm not dressed," I protested.

"That doesn't matter in the least—neither am I, you see. We will dine without others."

"Where?" I questioned.

"Well, how would the Studio suit?"

The car had reached the ground floor, and we left it together. I was completely in the dark as to my companion's purpose, and yet it could have but one explanation—it must be connected in some way with the Holladay case. Unless—and I glanced at him again. No, certainly, he was not a confidence man—even if he was, I would rather welcome the adventure. My curiosity won the battle.

"Very well," I said, "I'll be glad to accept your invitation, Mr.—"

He nodded approvingly.

"There spoke the man of sense. Well, you shall not go unwarded. Godfrey is my name—do you doubt

know me, but I'll soon explain myself. Here's my card."

I mounted into it, he after me. It seemed to me that there was an unusual number of loiterers about the door of the building, but we were off in a moment, and I did not give them a second thought. We rattled out into Broadway and turned northward for the three mile straightway run to Union square. I noticed in a moment that we were going at a rate of speed rather exceptional for a cab, and it steadily increased as the driver found a clear road before him. My companion threw up the trap in the roof of the cab as we swung around into Thirtieth street.

"All right, Sam?" he called.

The driver grinned down at us through the hole.

"All right, sir," he answered. "They couldn't stand the pace a little bit. They're distanced."

The trap snapped down again. We turned into Sixth avenue and stopped in a moment before the Studio, gray and forbidding without, but a dream within. My companion led the way up stairs to a private room, where a table stood, ready set for us. The oysters appeared before we were fairly seated.

"You see," he smiled, "I made bold to believe that you'd come with me, and so had the dinner already ordered."

I looked at him without replying. I was completely in the dark. Could this be the writer of the mysterious

## PAINFUL PERIODS

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering, it is not the plan of nature that women should suffer so severely.

Miss Irene Crosby

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Miss Irene Crosby, of 313 Charlton Street East Savannah, Ga., writes: "Lydia E. Pinkham's Vegetable Compound is a true friend to women. It has been of great benefit to me in curing me of irregular and painful menstruation when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, nervousness, prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

DOUGHERTY DEFIES THE COURT

Compels Probate Judge to Hold Session in the Peoria Jail.

Peoria, Ill., Nov. 28.—N. C. Dougherty, confessed embezzler and forger, now awaiting transportation to Joliet to begin his sentence, asserted his powerful influence over the court officials Monday morning and overriding an order of the sheriff refused to leave his cell to go into the probate court.

As a result of his refusal Judge Bassett of the probate court took Clerk Roberts and a stenographer and moved the probate court to Dougherty's cell in the county jail. This is the first time that a session of court has been held in a jail cell in central Illinois.

Dougherty was wanted in court to witness the signature of the late C. C. Lines to a will. Lines, who was a stockholder in the Peoria National bank and a lifelong friend of Dougherty, died from shock resulting from the exposure of Dougherty's duplicity and Dougherty was the only living witness to the signature of the will.

The convicted man gave as his reason for refusing to leave his cell that he feared public gaze and wished to avoid kodak funds, who he feared would form a line from the jail to the courthouse.

Death in Hotel Fire.

East St. Louis, Nov. 28.—One man was burned to death and six persons were injured in a fire that destroyed the interior of the South Bend Hotel. The shell of the building was left standing.

WILL NOT STOP HANGING DEC. 8

Vermont Governor Says He Will Not Interfere in Mrs. Rogers' Beheading.

Walden, Vt., Nov. 28.—Governor Charles J. Bell when informed of the decision of the supreme court of the United States in the case of Mrs. Mary Rogers said that he stood on the same ground he had maintained heretofore in this case. "I shall not interfere in any way," he said, "with the regular arrangement for the execution of Mrs. Rogers on date set, Dec. 8."

Masons Honor Vice President.

Washington, Nov. 28.—Vice President Fairbanks made the principal address at the annual visitation of the grand lodge of Masons of the District of Columbia to Lafayette lodge. Mr. Fairbanks was made an honorary member of Lafayette.

Cigarette Smokers Are Fined.

Omaha, Neb., Nov. 28.—Pat Moran and James Coffey were each fined \$50 for rolling a cigarette for their own use. The cases are to be appealed by the tobacco companies to test the anticigarette law on this point.

To Reappoint Metcalf.

Washington, Nov. 28.—The president has decided to reappoint Wilder S. Metcalf pension agent at Topsham, Kas.

Japs to Dominate Manchuria.

Tokyo, Nov. 28.—Baron Komura has been sent to Peking to arrange for Japanese domination of Manchuria.

## RURAL GUARDS DRIVE REBELS TO MOUNTAINS

Band of Twenty Insurrectionists Is Put to Flight Near Center of Havana Province.

Havana, Nov. 28.—The first shots between rural guards and insurrectionists were exchanged Monday near the center of Havana province. A telegram has been received from the captain of the rural guards saying that his detachment discovered a party of twenty insurrectionists led by Marino Roban and Rafael Castello, who organized the original band from Safed.

The party, the telegram says, after an exchange of shots fled, some toward the mountains and others across the fields. Nobody was hurt with the exception of a sergeant of the guards, who was thrown from his horse. It is reported that Roban was wounded, but this is not confirmed.

Letters received from the Isle of Pines pictures an interesting scene at Buena Gracia Saturday. American flags were hoisted on the American hotel where the meeting of the Americans was held, whereupon Cuban flags were raised on every Cuban house. The mayor, apprehending that the Americans would seize the town hall, gathered more than 100 men, who were armed with machetes, some of them with firearms, and stationed them inside the building, while many other armed Cubans were in the immediate vicinity. Some of the writers say that the women also were armed with knives.

In anticipation of what the Americans might do a couple of small cannon were placed in front of the town hall. Absolutely nothing occurred, however, to justify the apprehensions.

The Americans ratified the election of a delegate to the United States congress and of territorial officers. It was unanimously decided, however, that there would be no assumption of office except by the authority of the United States.

BOYS BIND COMRADE TO TRACK

High School Pupil Rescued by Girls in Nick of Time.

Logansport, Ind., Nov. 28.—When six pupils of the Washington school appeared in police court it was learned that they were to answer for a joke perpetrated upon Carl Hilton, a fellow student of about the same age, who, it is alleged, was bound with a wire to the Washburn railroad tracks Saturday night and who was rescued from his perilous position by Enid Alexander and four other girls just before the Toledo and St. Louis express passed.

Hilton was in the company of the five girls when captured by the alleged hangers. The girls followed and had just scrambled off the right of way when the train dashed by. The boys, who gave their names as Arthur Hewitt, Fred Gerhart, George Palmer, Arthur Montgomery, Henry Burh and Walter Burg were released with a reprimand after promising that no such pranks would be repeated.

DRAINAGE CANAL TRIAL IS ON

Damage Suit Decision May Involve \$500,000 in Peoria County.

Peoria, Ill., Nov. 28.—One of the most important of the damage suits filed by the land owners of the Illinois bottoms against the sanitary district of Chicago was taken up in the circuit court here Monday with Judge T. N. Green of Peoria presiding. The case, which was filed by Judge W. R. Curran and Congressman Joseph V. Graft three years ago, is based on the damages to 2,000 acres of land lying along the Illinois river below Peoria and \$500,000 damages is involved. Several of the suits against the sanitary district are now on file in Peoria county, and this case has been instituted as a test case, the ultimate decision of which will involve damages amounting to over \$500,000 in this county alone. Civil engineers from Chicago and outside legal talent will appear in the case.

Turns Down Beef Contractor.

Washington, Nov. 28.—The supreme court held Greenleaf W. Simpson down.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same results." MRS. PARK, 721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

**KEPT DAUGHTER'S BODY IN BOX**  
Ghastly Discovery Made in House of Aged Recluse Who Dies.  
Los Angeles, Cal., Nov. 28.—The death of Mrs. Liore Thompson, an aged and eccentric woman, has revealed a ghastly secret in her little cottage on Hoyle Heights. In a storeroom of the cottage, covered with rubbish, was found a hermetically sealed box containing the corpse of her daughter, who died twenty-seven years ago. The body of the young woman had been dismembered. When the box was opened a disinterment certificate signed F. R. Bontelle, undertaker, Amherst, Mass., Nov. 7, 1881, was found. The body had been shipped here from the east.

**Boy Robs Lock Boxes.**  
Washington, Ind., Nov. 28.—Chester Busic, a pupil in the eighth grade of the public schools, was arrested on the charge of robbing lock boxes in the postoffice. He confessed.

**Cashier is Old Offender.**  
Washington, Nov. 28.—It is said that evidence has been discovered that Cashier Adams' defalcations from the United States assay office at Seattle extend back as far as 1903.

**TO SELL IRVING PORTRAIT.**  
London, Nov. 28.—Whistler's famous portrait of Sir Henry Irving as "Philip of Spain" will be sold at auction Dec. 20.

**HARVARD MAN IS VINDICTIVE**  
Writer Favors Severing of Athletic Connection With Yale.  
Cambridge, Mass., Nov. 28.—The Harvard Graduate Magazine for December will contain an article by an unnamed graduate of the university setting forth that Harvard should abandon athletic relations with Yale on the ground that such relations are used by Yale simply as a basis upon which to claim parity with Harvard

as an institution of learning. Harvard, the writer says, furthermore, cannot win without adopting Yale methods, and this she cannot do without violence to her ideals. The writer continues: "The only publicity which Yale has consistently encouraged is publicity in athletics. And no wonder."

**Goes Insane On Ship.**  
Naples, Nov. 28.—During the voyage of the Austrian line steamer Francesco from New York a steersman

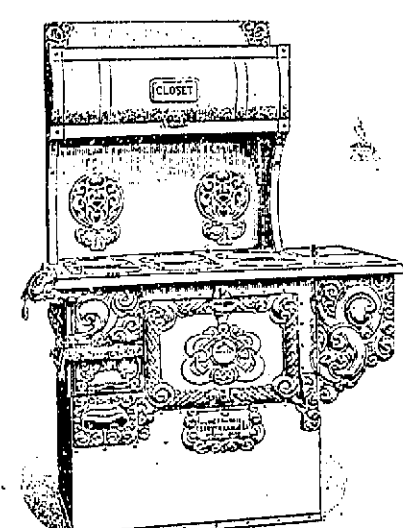

seeger named Forgione went suddenly insane and fired a revolver, killing Domenico Valtia and wounding several other passengers.

**Illinois Man is Receiver.**  
Washington, Nov. 28.—Thomas Rinaker of Carlinville, Ill., has been appointed receiver of the Enterprise National bank of Allegheny, Pa., which for several months has been in charge of a national bank examiner.
